Texas Sales and Use Tax Rates

CAROLE KEETON STRAYHORN • TEXAS COMPTROLLER

Local sales and use tax rate information is available to view or download from the Comptroller's *Window on State Government* Web site at:

www.window.state.tx.us/taxinfo/local

The Comptroller's Web site is updated on the first day of each quarter (January, April, July and October) with the most current sales and use tax information. Notice of changes effective each quarter are posted on the Comptroller's Web site approximately four weeks in advance.

NO Envelopes!

NO Postage!

NO Paperwork!

Last year the Comptroller's office processed nearly 400,000 electronically filed returns. The Texas Comptroller's WebFile program is a fast, friendly and secure method to file and pay Texas Sales Tax over the Internet 24 hours a day, 7 days a week. You can pay by Web electronic fund transfer or by credit card (American Express or Discover).

It's FAST:

There is no sign up or preauthorization required. You can calculate and pay your Texas sales taxes directly online. WebFile guides you through the filing process, delivering a customized tax return and detailed help screens right to your desktop. No envelopes, no postage, no paperwork required.

It's FRIENDLY:

Once you enter your data, WebFile's smart, interactive design automatically calculates your tax return, virtually eliminating human error. And, because WebFile taps the power of the Internet, it prevents you from submitting your return unless you agree that all the numbers add up.

It's SECURE:

Through WebFile, filing and paying taxes online is safe and secure. Sensitive business information and payments are closely guarded by state of the art encryption and a PIN/password process. Once you submit, you can rest assured that the Texas Comptroller of Public Accounts received your return because WebFile instantly presents a Reference Number receipt you can print for your records.

For more information, check out our Web site at <www.window.state.tx.us> and click on WebFile.

For WebFile technical assistance call 1-800-531-5441, extension 3-3630, or send an email to: WebFileHelp@cpa.state.tx.us.

Please Read the Following Information Before Completing Your Sales and Use Tax Return

Sales tax allocation data collected during the past year showed the Comptroller's office processed nearly 2 million sales and use tax returns, allocating \$3.9 billion in local sales tax to over 1,300 cities, counties, transit areas, and special purpose districts. Taxpayer accuracy in collecting and reporting local sales tax is a vital part of the allocation process because the data reported on sales and use tax returns is used to determine the amount of local tax each of these jurisdictions receives.

Each October we print this book with current tax rate changes and include tax rate changes from the past three quarters. The quarterly sales and use tax rate changes that will become effective in January, April and July 2005 will be printed on single pages that can be affixed to the designated pages indicated in this book.

Local sales and use tax rate information is also available to search, view, or download from the Comptroller's Web site *Window on State Government* at www.window.state.tx.us/taxinfo/local/. The Comptroller's Web site is updated on the first day of each quarter (January, April, July and October) with the most current sales and use tax rate information.

The state sales and use tax rate is 6¼ percent. State law limits the collection of local sales and use tax to **no more than 2 percent** for a total sales and use tax rate of 8¼ percent. Please refer to publication #94-105, *Guidelines for Collecting Local Sales and Use Tax*, for more detailed information. This publication is also available on the

Comptroller's Web site under the following address
<http://www.window.state.tx.us/taxinfo/taxpubs/tx94_105.html>

In this book are the local sales and use tax rates for Texas cities, transit authorities, counties, special purpose districts (SPDs), and combined areas. The name, local code, local rate, and total rate are listed for each taxing entity. The total rate for a city is comprised of the state tax rate, the city rate (if applicable) and the rates for the associated taxing entities listed beneath the city name.

The local code for each taxing jurisdiction begins with a specific number. Cities start with a "2," transit authorities start with a "3," counties start with a "4," SPDs start with a "5" and combined areas start with a "6." **Cities and counties without an assigned local code do not impose a local sales and use tax and should not be reported on the sales and use tax return.**

Transit authorities, counties, and SPDs that impose a local sales and use tax, such as San Antonio MTA, Delta and Fannin counties, and Delta County Emergency Services District in the examples below, are listed beneath the associated city's name with their local code and local rate. County names shown in parentheses next to a city, such as Bexar and Hidalgo in the examples below, are shown as a reference only. These counties have not adopted county sales and use tax and should not be listed on the sales and use tax return supplement to report local data. If a city is in more than one county, the total tax due may be different in each county, like in Pecan Gap below.

Example:	Local Code	Local Rate	Total Rate
Alamo (Hidalgo Co)	2108092	.020000	.082500
Pecan Gap	2060025	.010000	.082500
Delta Co	4060007	.005000	
Delta Co Emergency Services District	5060506	.005000	
Pecan Gap	2060025	.010000	.077500
Fannin Co	4074001	.005000	
San Antonio (Bexar Co)	2015012	.010000	.077500
San Antonio MTA	3015995	.005000	

Cities, transit authorities, counties, and SPDs are separate taxing entities. Sales and use tax data should be reported to each individual local taxing entity on the sales and use tax return supplement, as shown in the example below, and not combined and reported to one taxing entity. Unincorporated areas without an assigned

local code should not be reported on the sales and use tax return supplement. These areas are shown in the main alphabetical listing of this book only if there is a tax responsibility in a geographically defined local taxing area.

1. City/Transit/County/SPD Name	2. City/Transit County/SPD No.	3. Amount Subject to Tax (Whole Dollars Only)	4. Tax Rate	5. Amount of Tax Due (Multiply Item 3 by Item 4)

Answers to Frequently Asked Questions About Local Sales Tax

Spring is an unincorporated area, without geographically defined boundaries, that does not impose a local sales and use tax. The portion of the area known as Spring in Harris County is located in the Houston MTA area. A very small portion of the area known as Spring in Harris County is located within the Old Town Spring Improvement District, which is a special purpose district (SPD) with a sales and use tax. This SPD is referenced on page xiii, in *SPDs with Other Boundaries* with instructions to call the district to determine if an address is located inside the SPD. Local sales and use tax collected in the Houston MTA or the Old Town Spring Improvement District should be reported to the appropriate taxing jurisdiction, not to Spring.

The Woodlands is an unincorporated area, without geographically defined boundaries, located in Montgomery County. The area known as The Woodlands does not impose a local sales and use tax. The Town Center Improvement District and three Town Center Economic Development Zones (SPDs), are located within the unincorporated area of Montgomery County known as The Woodlands, but do not include all of The Woodlands. These SPDs are referenced on pages xiv and xv, *SPDs with Other Boundaries*, with instructions to call the districts to determine if an address is located inside the SPD. Local sales and use tax collected in these SPDs should be reported to the appropriate special purpose district, not to The Woodlands.

The DFW Airport is not a taxing entity with an assigned code. The DFW Airport area is located within the cities of Euless, Grapevine, and Irving. To determine the correct taxing entity, please use a street locator map or

verify the address by calling the city in which the sale or delivery was made.

Local sales and use tax should be reported based on the physical location address and not a postal address. Lakeline Mall has a postal address of Cedar Park, Texas, but is physically located within the City of Austin. Local sales and use tax collected in Lakeline Mall should be reported to the City of Austin and the Austin MTA, not to Cedar Park.

Baybrook Mall has a postal address of Friendswood, Texas, but is physically located within the City of Houston. Local sales and use tax collected in the Baybrook Mall should be reported to the City of Houston and the Houston MTA, not to Friendswood.

The area known as **Kingwood**, in Harris County, was annexed by the City of Houston effective January 1, 1997. Although it has a postal address of Kingwood, local sales and use tax collected in this area should be reported to the City of Houston and the Houston MTA, not to Kingwood.

Because many cities in Texas share a common ZIP code and many ZIP codes encompass an area both inside and outside a taxing entity, we do not recommend using this source as a method of reporting local sales and use tax. To determine the correct taxing entities, we recommend contacting the customer for additional information, using a street locator map for larger metropolitan areas, or verifying the address by calling the city in which the sale or delivery was made. Determining the correct taxing entities will ensure that all the local tax is collected and reported accurately.

Combined Area Sales and Use Tax

The combined area local code is used to separately distinguish unique areas where a portion of a city overlaps another taxing jurisdiction, resulting in a total local tax rate that would exceed two percent. However, legislation allows the Comptroller to make the necessary adjustments to the total local tax rate to maintain a two percent rate for these unique areas. If you do business in one of these unique city areas, you must use the combined area local code **instead** of the regular city code to report local sales and use tax. The Combined Area tax is collected in addition to state tax and any other local taxes (transit, county, special purpose district) when applicable.

NOTE: Do not report the city local code and the combined area local code for the same sales transaction.
